Laundry Room Rules

1. **Respect Time Limits**

   Set timers and promptly remove your laundry to allow others to use the machines.

2. **Clean Lint Traps**

   After using the dryer, always clean out the lint trap for safety and efficiency.

3. **Empty Pockets**

   Check and empty pockets to avoid damaging machines and clothes.

4. **Use Detergent Wisely**

   Follow the instructions for detergent amounts—overuse can damage clothes and machines.

5. **Leave It Clean**

   Wipe down machines after use and clean up spills to keep the area tidy.

6. **Be Courteous**

   If a machine is done, promptly remove your clothes.
   If someone else's clothes are left in a machine, consider waiting a few minutes before removing them to a safe place.

7. **Avoid Overloading**

   Don't overstuff machines; it can cause damage and lead to ineffective washing.

8. **Personal Items**

   Take all personal items with you when you leave. Don't leave detergents or clothes in the laundry room.
